GENERAL INFORMATION

The course aims to teach musculoskeletal ultrasound and is designed to learn the practice of standard ultrasound examinations. For that purpose, the key anatomic structures are discussed for each joint and emphasise is placed on training each participant individually in practical sessions.

This is guaranteed by the presence of experienced teachers and by the limited number of participants (maximum 24) accepted for each training session. Formal lectures provide an overview of current applications.

University Hospital Dubrava is the Nation's youngest University Hospital. It is the educational institution for students of Medicine, Dentistry, Pharmacy and Biochemistry of School of Medicine, University of Zagreb. Hospital Dubrava is now one of the leading hospitals in the Region and of the overall national interest. Facilities of the University Hospital Dubrava include 600 hospital beds in the stationary part of the hospital.
