Dear colleagues, dear friends, young and not so young radiologists,

It is our great pleasure and honour to organize fourteenth Slovenian-Hungarian-Slovakian-Croatian Congress of young radiologists that is taking place in Croatia for the fifth time, after Opatija, Koprivnica, Vukovar and Čakovec. Our meeting will take place from May 5 - 7, 2023 in the beautiful coastal town of Vodice, near Šibenik, in the hotel Olympia Sky.

Our first joint congress took place in 1999 in Koszeg, Hungary and the basic purpose of these meetings is to provide an opportunity to young radiologists to deliver lectures at an international meeting, accompanied with their mentors and thus to acquire experiences needed in their future professional activities.

European Society of Radiology emphasizes the need to include young radiologists into various professional societies, to participate in various seminars and forums. We are also happy to be able to continue the tradition lasting for over twenty years. We hope that his meeting will be equally interesting and fulfilling in professional and social activities and that our young colleagues will both benefit professionally and enjoy.

On behalf of CSR and members of the CSR board, the local organizer of this year meeting we are greeting you cordially and are looking forward to our meeting.

Drage kolegice i kolege, dragi prijatelji, mladi i ne tako mladi radiolozi,

zadovoljstvo nam je da smo lokalni organizatori 14. Hrvatsko-slovensko-mađarsko-slovačkog kongresa mladih radiologa, koji se po 5-ti puta održava u Hrvatskoj i to nakon Opatije, Koprivnice, Vukovara i Čakovca, 5-7.5.2023. godine održat će se u prelijepim Vodicama, u hotelu Olympia Sky.

Kao što je poznato u dugogodišnjoj tradiciji koja seže od 1999.godine, kada je bio prvi zajednički kongres Kőszegu u Mađarskoj, osnovna namjena ovog kongresa je prilika mladim radiolozima da održe predavanja na međunarodnom kongresu uz svoje mentore i na taj način steknu iskustva koja su im potrebna u budućem stručnom i znanstvenom radu.

U maniri Europskog društva radiologa koji daje sve veći naglasak i potrebu uključivanja mladih radiologa u rad stručnih društava u sklopu raznih organizacija, seminara i foruma, sretni smo što smo u prilici nastaviti ovu tradiciju koja traje preko 20 godina, i nadamo se da će i ovaj put biti jednako stručno, zanimljivo, a i naravno u dobrom raspoloženju što uz stručnost i želju za edukacijom karakterizira mlade liječnike.

U ime Hrvatskog društva radiologa te članova Upravnog odbora, kao lokalnih organizatora ovogodišnjeg kongresa srdačno vas pozdravljamo do zajedničkog druženja i izmjene novih dostignuća u radiologiji.

Prof.dr.sc. Goran Roić
